Location: Sangola

PROFESSIONAL SUMMARY:

I am a MERN Stack Developer with hands-on experience in **MongoDB, Express.js, React.js, and Node.js**. I specialize in **building full-stack web applications, designing user-friendly front-end interfaces, and creating robust APIs**. I am proficient in Git, comfortable working in collaborative team environments, and eager to learn new technologies. Additionally, I have foundational knowledge in **data analysis**, allowing me to interpret data and provide actionable insights. I am passionate about coding and enjoy solving real-world problems through innovative web development solutions.

TECHNICAL SKILLS

- Languages: SQL , HTML, CSS, JAVA (Opps, Fundamental), Javascript
- Frameworks & Libraries: REACT, Express.js, Bootstrap, Tailwind.css ,Node.js
- Databases: Mongo DB , Mongoose, MySQL, SQL
- Tools & Platforms: Postman, VS code , Eclipse , Git, Github

PROJECTS

1] Project Title : **AI-Powered Bird Classification System**

- **Developed a full-stack application** to classify birds using **images and sound**.
- **Provided offline access** and displayed **bird locations** with extra information.
- **Key features:** Image & sound recognition, offline functionality, location-based details.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, TensorFlow/PyTorch, REST APIs.

2] Project Title : **Food Delivery Web Application**

- **Built a full-stack food delivery platform** using the **MERN stack** for seamless user experience.
- **Implemented features** like **user registration, menu browsing, cart management, and online ordering**.
- **Key functionalities:** Real-time order tracking, secure payment integration, and admin dashboard for managing restaurants and orders.
- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, RESTful APIs, Stripe (for payments).

3] Project Title : **Web Development Projects**

- **Recipe Website:** React app displaying dishes with ingredients and images via food APIs.
- **Mini Games:** Interactive browser games (Tic-Tac-Toe, Rock Paper Scissors, Memory Game) using HTML, CSS, JS.
- **ChatGPT Clone:** React-based chatbot simulating AI-style interactions with a responsive UI.
- **Weather App:** Displays real-time weather data via REST API in a clean React interface.
- **E-commerce Website:** Shopping platform with product listing, cart, and responsive layout.
- **Pokémon Info Website:** Shows detailed Pokémon info using REST API.
- **Country Info Website:** Country explorer using REST API showing population, flags, language, etc.

EDUCATION

- Degree — Fabtech college of Engineering Sangola(2022 – 2026) |
- HSC — New English School Sangola | 78.33%
- SSC — New English School Sangola | 82.60%

COURSES & ACHIEVEMENTS

- Data Structures & Algorithms in Java – Apna College
- Data Analyst – WsCube
